- Mounting screws (x2)

Important Notes

Codes: Install in accordance with all local and National Electrical Codes.

Environment: Ambient operating temperature is 41° F to 104° F (5° C to 40° C).

Mounting: Mounting bracket (included) allows for direct mounting to drywall. No junction box required.

**Battery:** DO NOT use rechargeable batteries. Using improper batteries could damage the DecoFlex keypad.

Dimensions

Decora Switch Plate
(Switch Plate included)

somfy.

The keypad can be wall-mounted with the following steps:

1. Cut an opening into drywall using the mounting bracket as a guide.
2. Install the bracket securely in place.
3. Secure the keypad to the bracket using the screws provided (do not over-tighten).
4. Attach the Decora Switch Plate on to the keypad

Initial Programming

For detailed steps on programming, please refer to the pocket programming guide at www.somfypro.com/pocket-programming-guide
STEP 1: INITIATE PROGRAMMING

On the keypad, PRESS & HOLD both the **OPEN** and **CLOSE** buttons simultaneously until the window covering jogs. This may take up to 10 seconds.

STEP 2: CHECK THE DIRECTION OF OPERATION

On the keypad, PRESS & HOLD the **CLOSE** button and check if the window covering is closing. If the window covering does not correspond with the expected direction, PRESS & HOLD the **STOP** button until the window covering jogs to reverse the direction. Confirm before proceeding.

### STEP 3: SETTING MOTOR LIMITS *(The end limits can be set in any order)*

⚠ For drapery, BRIEFLY PRESS the **OPEN** or **CLOSE** buttons. The drapery will automatically run to record both hard stop positions.

Bring the window covering to the desired upper limit position, then PRESS & HOLD both the **STOP** and **CLOSE** buttons simultaneously until the window covering starts to move.

PRESS the **STOP** button to stop the motor when the desired lower limit position is reached. PRESS the **OPEN** or **CLOSE** button to adjust to the exact position.
PRESS & HOLD both the **STOP** and **OPEN** buttons simultaneously until the window covering starts to move. The window covering will stop at the previously set upper position.

PRESS & HOLD the **STOP** button until the window covering jogs to confirm the limit settings.

STEP 4: COMPLETE PROGRAMMING

BRIEFLY PRESS the **PROGRAMMING** button on the front of the keypad. The window covering will jog indicating programming is complete and the keypad is now ready to be used.

SETTING INTERMEDIATE PREFERRED "MY" POSITION

Stop the window covering at the desired intermediate position, then PRESS & HOLD the **STOP** button until the window covering jogs.
The intermediate position is now confirmed. PRESS the **STOP** button to move the window covering to this position.

Set Desired Position   STOP
HOLD

MODIFYING THE OPERATION DIRECTION

Move the window covering away from its current upper or lower limit, then PRESS & HOLD both the **OPEN** and **CLOSE** buttons simultaneously until the window covering jogs. This could take up to **10** seconds.

Hold the **STOP** button until the window covering jogs to confirm the change of the operation direction.

OPEN CLOSE   STOP   OPEN CLOSE   STOP
HOLD   HOLD   HOLD   HOLD

MODIFYING UPPER/LOWER LIMITS

Move the window covering to its current upper or lower limit, then PRESS & HOLD both the **OPEN** and **CLOSE** buttons simultaneously until the window covering jogs. This could take up to **10** seconds.
Adjust the shade to the new desired limit position with the **OPEN** and **CLOSE** buttons, then PRESS & HOLD the **STOP** button until the window covering jogs to confirm the new limit.

Move shade to currently programmed limit   OPEN CLOSE   Adjust to new limit position   STOP

ADJUSTING THE SPEED *(Supported motors only)*

Move the window covering away from its upper or lower limit, then PRESS & HOLD both the **OPEN, STOP,** and **CLOSE** buttons simultaneously until the window covering jogs and the window covering starts moving. This could take up to **10** seconds.
To increase the speed, PRESS & HOLD the **OPEN** button until the shade jogs. Repeat as needed. To decrease the speed, PRESS & HOLD the **CLOSE** button until the window covering jogs. Repeat as needed.

PRESS & HOLD the **STOP** button until the window covering jogs to confirm the new speed.

WARNING: Burn hazard. To avoid the risk of fire, explosion, or burns, DO NOT recharge, disassemble, crush, puncture, or incinerate the battery. Please recycle battery appropriately.

1. Remove the keypad from the wall and disassemble.
2. Slide a new CR2450 battery into the holder and reassemble the keypad.
