REFLECTIVE PERFORMANCE¹

- Gain Chart—See below
- 0° Gain: 0.9
- Half Gain Angle: Material does not reach half gain.

¹Individual test results may vary. Results based on a representative sample in Draper inventory.

ClearSound Family of Surfaces

The ClearSound family features premium acoustically-transparent viewing surfaces. Available with standard or microscopic perforations and fine-weave acoustically-transparent fabrics that allow sound to travel through the fabric. This ensures the highest quality experience in audio visual applications by providing a cinematic experience. The combination of self-supporting and tensioned surfaces means that almost any Draper projection screen model can be provided with a ClearSound viewing surface. All are 4K ready.
