

MOTORIZED FlexShade® Motorized Zigbee

BUILT-IN ZIGBEE TECHNOLOGY FOR SEAMLESS INTEGRATION

JULUI, Indianapolis. Photographer: Tony Frederick

- The FlexShade® Motorized Zigbee provides two-way intelligent communication for easy control and real-time feedback on shade positions via a smartphone or tablet.

Its built-in Zigbee technology allows seamless integration and setup, ensuring all products and services work together.

Manage natural light and privacy control through TaHoma hub using an iOS or Android device.

FEATURES

- Accommodates up to 8' (244 cm) width.
- A connected, quiet 120V/60HZ AC round head motor available in two torque speeds (4Nm/36RPM and 6Nm/24RPM). Compatible with TaHoma hub.
- TaHoma Gateway is required for any Zigbee installation.
- A smart plug is required to create a mesh network. Zigbee high voltage motors repeat the signal, which may result in fewer smart plugs required on a project.
- Self-healing and scalable abilities provide for networks with hundreds of devices.
- Shades can be operated with a remote control, smartphone app or voice commands through Amazon Alexa, IFTTT, Phillips Hue, Josh.ai, Brilliant, and Google Assistant.
- Product designed for interior use.

OPTIONS

- Mounting brackets (standard). Optional fascia with endcaps, or headbox with closure.
- Hardware finish choices: clear anodized (standard), black, white, ivory, or charcoal bronze. Custom powder coat colors available.
- Choose from hundreds of fabrics in a variety of colors, textures, and opacities to customize any room décor.
- Shades can be customized with graphics, patterns, or custom color matches, including color matching libraries such as Sherwin Williams and Pantone.
