

SPECIALTY & PE EQUIPMENT Clock Guard

MOVES MAT AT CEILING LEVEL

PART NO. 502050

- The Clock Guard features a heavy-duty steel frame that shields gym clocks from flying sports equipment, preventing shattered glass in activity areas. The frame fits most standard size gym clocks, mounts securely to the wall, and offers quick-and-easy access to the clock.

FEATURES:

- Constructed of 1/4" (6 mm) diameter, 16-gauge steel rods welded to a steel frame.
- Inside dimensions are 20" x 20" square (508 mm x 508 mm).
- Available with a black powder coat finish.
- The Clock Guard is double hinged on one side and has a wing nut fastener assembly on the other.
- No tools are required to open or close.

MEASUREMENTS

- Clearance between the wall and the front of the frame is 4" (101 mm). A 1" (25 mm) space allows the clock cord to pass under the frame.
