

GYM DIVIDER CURTAINS PARAGON G

IDEAL FOR SMALLER OPENINGS

- When a typical unfinished gym divider is not a good fit, the free-hanging Paragon G Divider Curtain offers flexible design opportunities. Housed in an extruded aluminum case that fully encloses operating mechanism and rolled curtain, this divider can be suspended anywhere. Ideal for small openings like stages, under elevated running tracks, dividing a small space, gyms, churches, or other areas that require a finished look.

FEATURES:

- Includes extruded aluminum case with white finish. Optional wall-mounting brackets and ceiling trim flange kit. Custom attachment available.
- Bottom closure panel provides easy access for service or maintenance.
- Includes 3-position momentary key switch (standard).
- Operated by 110-120V AC, 60 Hz 3 wire motor mounted inside roller tube.
- Left-hand motor location standard, but right-hand available.
- UL approved. Suitable for use in environmental air space.

OPTIONS:

- Available in either all solid vinyl, vinyl coated polyester mesh, or a combination of mesh on the top and solid on the bottom.
- Solid vinyl colors available: white, marine blue, dark royal blue, forest green, yellow, orange, black, red, maroon, beige, or grey.
- Mesh colors available: white, red, blue, yellow, black, or grey.
- Graphic curtains available, maximum graphic height is 56" (142 cm).
