Aluminum In-Ground Soccer Goals

Soccer Goals and Accessories

Specifications — Official Aluminum In-Ground Goals

In-Ground Soccer Goals shall be provided by Draper, Inc., of Spiceland, IN.

505006 OFFICIAL SIZE—Face of goal shall be constructed of 4" round aluminum tubing. Goal shall have a 24' wide and 8' high opening.

Design shall allow for 24" of upright to be buried in a 30" deep footing or installed in optional 505009 ground sleeves.

Crossbar shall attach to uprights by means of ½" grade 5 bolts that do not protrude from the front or rear face of the goal. All components shall be finished with white polyester powder coated finish. Goals shall meet all NCAA, NFHS and FIFA rules and carry a one-year warranty.

Net shall attach by means of net clips.

System shall weigh approximately 300 lbs. per pair.

Specifications — 505016 Twisted Nylon Soccer Nets

Net shall be constructed of 3.5 mm minimum high-strength twisted nylon cord mesh with a minimum of 5.5" square openings.

Net shall have finished rope edges.

Net shall have a 24' width, an 8' height, an 8' bottom depth. Shipping weight shall be approximately 20 lbs. pair. Net color: white.

Specifications — 505009 Ground Sleeve for Aluminum In-Ground Soccer Goals

Sleeves shall be constructed of extruded aluminum and require bury in a 18" x 30" minimum footing. Actual sleeve depth shall be 24" and be designed to allow removal of 4" uprights on in-ground soccer goals.

Sleeve shall have a locking cap and shall be sold in sets of four sleeves to allow installation of one pair of soccer goals. Set of four sleeves shall weigh 28 lbs.
