

### Very High Contrast/Moderate Viewing Cone/On-Axis Gain of 1.0

- 1.0 on-axis gain, Ambient Light Rejecting (ALR).
- Full ambient light.
- Standard throw projection.
- Moderate viewing angles.
- Lens/Throw distance ratio for best uniformity: 1.4:1 or longer.
- A minimum distance of 2x the image height to the closest viewer is recommended.

### Surface Characteristics

- Maximum image height: 22' optically seamless.
- Weight (g/sm): 441
- Thickness (mm): .36
- Cleaning: Mild soap and soft cloth
- Flame and mildew resistant
- Composition: Flexible PVC
- Also available in a nano perforated option up to 96" in height

### Reflective Performance\*

- Gain Chart: See below.
- 0° Gain: 1.0
- Half Gain Angle: 35°
- ALR: 73%

\*Individual test results may vary slightly.

TecVision® is an exclusive line of premium projection surfaces designed, formulated, and manufactured by Draper® to exacting standards for unparalleled uniformity, performance, and quality.

TecVision surfaces are available in 3 categories to fit any application:

- **Performance/Reference Whites for dark spaces/controlled lighting.**
- **Premium/Matte Greys for increased contrast in controlled light applications.**
- **Ambient Light Rejecting (ALR) for uncontrolled light applications.**

All TecVision surfaces are 8K-ready and certified color-accurate by the Imaging Science Foundation (ISF).
