PORTABLE FOLDING UFS DRESS KIT

COMES WITH CARRY CASE AND 20oz (.5 KG) BLACK VELOUR

Valance Bar

Ball Detent

Heavy-Duty Legs

- Create a professional, theater-like presentation with a UFS Dress Kit. Velour drapes frame the viewing surface, drawing the audience's focus toward your presentation on the screen. In addition to framing your presentation, dress kits hide projection equipment, shield the audience from projector light, and help eliminate ambient light in the projection area in rear projection applications.

FEATURES
- COMPLETE DRESS KIT: Complete Dress Kit includes 46" (117 cm) skirt, 12" (30 cm) valance, and two 32" (81 cm) wide side drapes, with valance and drapery mounting bars.
- Hardware attached to frame without tools.
- FABRICS: The Ultimate Folding Screen Dress Kit comes standard with 20oz. cotton velour (treated for fire resistance). Black fabric is standard.

- ATTACHMENTS: Valance and drapery bars attach to frame without tools. The bars have snaps to attach to the fabric.
- Adjust screen size and aspect ratio by raising the optional, adjustable skirt bar in 6" (152 mm) increments to conceal lower portion of viewing surface.

OPTIONAL
- A wheeled polyethylene carrying case is optional but recommended for Ultimate Folding Screen Dress Kits.
- Available with Inherently Flame Retardant (IFR) Velour. IFR Velour is flame retardant for the life of the fabric, and never needs retreating.
- Rich Navy or a variety of custom colors are optionally available.
- Heavy-duty legs, extra heavy-duty legs, and anti-sway stabilizers are recommended for extra stability.

- WARRANTY: One year against defects in materials and workmanship.

Flame Retardancy Standards
Draper's Inherently Flame Retardant Velour is manufactured and certified to meet these flame retardancy standards: NFPA 701, MVS-302, BIFMA-F-1-1978, SC-191-53 Class 1 California, and UFAC Class 1.
